

INDEX, Vol. 66

- Abecasis, G. R.
see Zhang, W. *et al.*
- ABO locus. Sequence variation at the human, 1
- acetylglucosamine. Identification of human phosphoglucomutase 3 (*PGM₃*) as *N*-...-phosphate mutase (*AGM₁*), 139
- ACPI* gene. Identification of two SNPs in the 5' flanking region of the...and evaluation of disequilibrium among polymorphic sites, 254
- Adinolfi, M.
review of *The Genetics and Biology of Sex Determination*, by Novartis Foundation Symposium No.244, 329
- Africa. Bantu and European Y-lineages in Sub-Saharan, 369
- allele frequency estimations. Identification of the sources of error in ... from pooled DNA indicates an optimal experimental design, 393
- allelic association. Mapping quantitative effects of oligogenes by, 211
- Alves, C.
see Pereira, L. *et al.*
- Amorim, A.
see Azevedo, L. *et al.*
- Amorim, A.
see Brehm, A. *et al.*
- Amorim, A.
see Pereira, L. *et al.*
- Amos, C. I.
see Gorlova, O. *et al.*
- apolipoprotein. Genetic and environmental determinants of plasma high density lipoprotein cholesterol and ... AI concentrations in healthy middle-aged men, 111
- association analysis for quantitative traits by data mining: QHPM, 419
- association studies. Accurate power approximations for χ^2 -tests in case-control... of complex disease genes, 307
- association tests. Robust TDT-type candidate-gene, 145
- Azevedo, L., Calafell, F., Vilarinho, L. & Amorim, A.
haplotype analysis and phylogeny of Ornithine Transcarbamylase polymorphisms, 379
- Bandelt, H. J.
see Brehm, A. *et al.*
- Bantu and European Y-lineages in Sub-Saharan Africa, 369
- Barratt, B. J., Payne, F., Rance, H. E., Nutland, S., Todd, J. A. & Clayton, D. G.
identification of the sources of error in allele frequency estimations from pooled DNA indicates an optimal experimental design, 393
- Barros, F.
see Vega, A. *et al.*
- Bau, C. H. D.
see Bortolini, M. C. *et al.*
- Boerwinkle, E.
see Gorlova, O. *et al.*
- Bedoya, G.
see Bortolini, M. C. *et al.*
- Benazzi, E.
see Martinetti, M. *et al.*
- Bernardinelli, L.
see Martinetti, M. *et al.*
- Bidzinski, M.
see Plisiecka-Halasa, J. *et al.*
- Blaveri, E.
see Curtis, D. *et al.*
- bone mineral density/content. Evidence for a major gene for...in human pedigrees identified via probands with extreme bone mineral density, 61
- Borgiani, P.
see Faggioni, G. *et al.*
- Bortolini, M. C., Salzano, F. M., Bau, C. H. D., Layrisse, Z., Petzl-Erler, M. L., Tsuneto, L. T., Hill, K., Hurtado, A. M., Castro-De-Guerra, D., Bedoya, G. & Ruiz-Linares, A.
Y-chromosome biallelic polymorphisms and Native American population structure, 255
- Bottini, E.
see Faggioni, G. *et al.*
- Bottini, N.
see Faggioni, G. *et al.*
- Bourgain, C., Genin, E., Ober, C. & Clerget-Darpoux, F.
missing data in haplotype analysis: a study on the MLC method, 99
- Braegger, C. P.
see Popat, S. *et al.*
- BRCA1* and *BRCA2*. Analysis of... in breast and breast/ovarian cancer families shows population substructure in the Iberian peninsula, 29
- Brehm, A., Pereira, L., Bandelt, H. J., Prata, M. J. & Amorim, A.
mitochondrial portrait of the Cabo Verde Archipelago: the Senegambian outpost of Atlantic Slave Trade, 49
see Spinola, H. *et al.*
- Cabo Verde. Distribution of HLA alleles in Portugal and ... Relationships with the slave trade route, 285
- Cabo Verde Archipelago. Mitochondrial portrait of the... : the Senegambian outpost of Atlantic Slave Trade, 49
- case-control samples. A quick and simple method for detecting subjects with abnormal genetic background in, 235
- Calafell, F.
see Azevedo, L. *et al.*
- cancer. Analysis of *BRCA1* and *BRCA2* in breast and breast/ovarian... families shows population substructure in the Iberian peninsula, 29
- Cardon, L. R.
see Zhang, W. *et al.*
- Carracedo, A.
see Vega, A. *et al.*
- Carpanelli, R.
see Martinetti, M. *et al.*
- Castellani, L.
see Martinetti, M. *et al.*
